Head First JavaScript Programming

Synopsis

What will you learn from this book? This brain-friendly guide teaches you everything from JavaScript language fundamentals to advanced topics, including objects, functions, and the browser's document object model. You won't just be reading—you'll be playing games, solving puzzles, pondering mysteries, and interacting with JavaScript in ways you never imagined. And you'll write real code, lots of it, so you can start building your own web applications. Prepare to open your mind as you learn (and nail) key topics including:

- The inner details of JavaScript
- How JavaScript works with the browser
- The secrets of JavaScript types
- Using arrays
- The power of functions
- How to work with objects
- Making use of prototypes
- Understanding closures
- Writing and testing applications

What's so special about this book? We think your time is too valuable to waste struggling with new concepts. Using the latest research in cognitive science and learning theory to craft a multi-sensory learning experience, *Head First JavaScript Programming* uses a visually rich format designed for the way your brain works, not a text-heavy approach that puts you to sleep. This book replaces *Head First JavaScript*, which is now out of print.

Book Information

Series: Head First

Paperback: 704 pages

Publisher: O'Reilly Media; 1 edition (April 10, 2014)

Language: English

ISBN-10: 144934013X

ISBN-13: 978-1449340131

Product Dimensions: 1.5 x 8 x 9.5 inches

Shipping Weight: 2.7 pounds (View shipping rates and policies)

Average Customer Review: 4.5 out of 5 stars [See all reviews](#) (94 customer reviews)

Best Sellers Rank: #44,903 in Books (See Top 100 in Books) [#39 in Books > Computers & Technology > Programming > Web Programming > JavaScript](#) [#104 in Books > Computers & Technology > Programming > Software Design, Testing & Engineering > Software Development](#) [#193 in Books > Textbooks > Computer Science > Programming Languages](#)

Telling a story with pictures

In Head First books, we know that pictures and diagrams help make concepts easier to understand and get them cemented in your mind. Just

about every single page contains illustrations to help explain the core JavaScript concepts so you don't just learn them for today, you remember them for the next job interview. New programmers, too Even if you've never written a single line of code before, you'll be writing programs in no time with Head First JavaScript Programming. All you need is a little experience with HTML and CSS, and you're good to go. We'll step you through writing your first program and before you know it, you'll be building interactive games. Really learn JavaScript When you're done reading Head First JavaScript Programming we want you to deeply understand JavaScript, not just be able to follow some recipes to do a few things. We don't shy away from the difficult topics, so you don't have to either. Our goal is for you to discover that you really can learn JavaScript, in a way that you can apply to every project and application you create.
