Customer Reviews

Like, I SO do NOT need anymore cookbooks: I have a huge library including some noteworthy ones dedicated to chicken or poultry. But, this caught my eye at my Costco, and there was just SO much good, great, material in it, I took it home "just to look at it"...and kept it! The book is beautifully produced, with a generous amount of excellent photography....not of ALL recipes, but many. The author/s really know their material and really know how to assemble a usable cookbook. There are a

wide array of truly interesting recipes: classics and international, with nice inclusion of Asian, Italian, Greek, French, and other recipes, well done. Chef John Ash is able to somehow retain authenticity while making the recipes accessible and, easy...at least in my opinion. Some recipes have ingredients some folks may find hard to get, depending on where they live and such (not a problem here in N. Cali, but I see this issue come up a lot in reviews), but there is such variety that folks should find plenty to work with: it may help if your local grocery stocks good basic Asian condiments like fish sauce and such. The recipes cover chicken, turkey, and also some for quail, and other game birds; the majority are chicken. Although I have many of the recipes in other books, I find the versions in this book are fresh, new, insightful, and creative. The "Chicken Avgolemono with root vegetables" is a great version of the classic Greek egg/lemon soup. The Asian rotisserie chicken salad is super easy and delish; love the lemongrass chicken recipe, and also many of the salads are just awesome. There is also posole blanco... (Mexican hominy soup usually made with pork, appears here in a wonderful chicken version)... easy to do if you can get a can of hominy!
