A very nice book on slippers...felted slippers with knitted and some embroidered designs. I think I will make some for Christmas presents. This is the type of book that will be used again and again. I have show it to members of my knitting group and they all liked it and thought it was worth the purchase. The instructions and photographs are charming and instructional. Easy enough for a beginning knitter too. Thank you, Arne & Carlos for this classic book on slippers what are truly "practical" and range from cute (Rabbit slippers") to exotic. Way to go, Arne & Carlos!

Beautiful slippers - easy to follow directions....but you must follow directions. Switching yarns back and forth sounded so tedious so tried just using double strand - did not work! Using directions as stated, I knitted small size with #10 needles (magic loop method) using Knit Picks wool. After felting - I felt by hand..tightly - I found they were a bit narrow (wear a size 6 shoe). I'll wait and see how well they stretch out - maybe next time I would use medium size for width but small size for length.

So much fun. Watch their YouTube video to pick up a couple tips that might have been lost in translation, i.e. Knitting with two strand, picking up edge stitches, and count double strands as one stitch while knitting.

What little girl or big for that matter wouldn't want the cute pony slippers!!! The patterns are fun, and vibrant and appealing . I can't wait to get started on a pair .

Have "gifted" this to a friend who is an expert knitter. I'm not, way too complicated, stranded knitting for almost every pair. I have other slipper patterns that are just as warm, just as durable that did not require learning a new technique. To knit the way they do is great and wish I were that good but I'm not and do not want to spend hours (what it would take me) to learn their technique and make the slippers. They give no directions on their "two-strand" approach and thought instructions they did provide were pretty vague.

Beautiful book. So well illustrated. Loved the bits of history. I will enjoy this book for years to come even if I never make a slipper.

Fun book. I really enjoy these designers and their books. I think I have all of their books

Good book - all slipper patterns are similar. Pics on slippers are embroidered on, which I have to learn!!! Love the felted slipper.
