Customer Reviews

This is a fun book. It is a great way to have fun with the kids and know they are having healthy foods. This book really makes it easy to make a healthy smoothie with a great variety of healthy food. It gives you the basics and helps you build from there. Recommend this book if you are looking for smoothie recipes.

These smoothies are fun for kids, but they're equally good for adults. I'm on a weight management program which encourages me to eat more fruits and vegetable and less sugar. All of these recipes

fit that description, and they taste delicious. I was having a hard time consuming enough fruits and vegetables until I started trying these recipes

This book is a terrific addition to my cookbook shelf. Lots of variety. I am hooked on these smoothies. I did not think healthy smoothies could taste this good. My kids love them too, and I am seeing the health benefits in them. I highly recommend.

These recipes also for adults along with children. I got this book for my children and I found that now he's taking smoothies and he demands me again and again these recipes are too delicious and healthy I also take some of these for enjoyment it's good taste and weight loss thanks.
