I weave, knit, sew but crochet has always confused me! I am in the process of making the caravan and so far I am feeling confident about crocheting! I am living and traveling in a camper/caravan so this project is especially fun. I am in the US and here's what I am using: Grace by Patons which is a mercerized cotton.; tacky glue for construction; sugar & cream cotton for interior accessories. I will be consulting the author's errata page because I can't figure out how and when to attach the front but other than that the directions have been excellent. Thank you, Kate Burning for getting me crocheting at last!

I haven't made any of the projects yet, but I've read through the directions, and I don't foresee any issues at all. They're well written, easily converted to American products, and so adorable that I can't wait until I can find some time to use it!The number of patterns is staggering. Each main project has so many accessories that one can make to really create a magical world!! did see that an American version is available for preorder - if you prefer, order that one. I couldn't wait and I'm

glad I didn't because I pick this up and read a new section every chance I get. It's got me so excited about making these for my granddaughter. I just need time and the ability to decide which one first!

This book has amazing designs that are cute to decorate a table or shelf, but absolutely perfect to help develop a young mind for imagination and creativity. There are so many projects, from camper, boats, tents, sleeping bags, picnic blankets, as well as plenty of camping accessories. All of the instructions are well written and easy to follow and also include great visuals. For those new to crochet, there is a introduction section that is perfect for beginners. When you look at all the designs, plus tips from the author, the low price of this book, it really works out to be an exceptional value. Absolutely adorable designs

This book is so cute! The size of the book is little and fits the cute little projects featured in it. The styling of the projects is inspiring as well as the projects themselves. The projects will inspire play for little ones as well as for adults to style and enjoy making. My favorite project is the vintage style camper and all the little accessories. I am also going to make the tiny clothing accessories for dolls.

I love this book! I'm going to make a bunch of play camping gear for my son. Please be advised, the book is not American, so if you are from the USA, you need to translate the patterns. That's simple enough: DC in UK patterns(or Australian since that's where this was published) is a SC in American terms. There is a how to section in the front with photos to help with that confusion too.

It was ok, I found a lot of the info vague, the lettering was spidery and small and very hard to read. Will have to get a magnifying glass to be able to read the words due to the spidery thin, very small lettering. I am still wondering what Washi tape is, haven't figured that out. It might be a different word than Washi but I couldn't quite make it out until I get a magnifying glass to confirm the word. I was pretty disappointed in the book. I wouldn't recommend it for someone who actually wants to make the patterns rather than just look at the pretty pictures.

Wonderful book with TONS of patterns, not just camping stuff.

The items in the book are really adorable. I was surprised that so many items are included in the book. I am very satisfied with my purchase
