# Crock-Pot Soups & Stews Recipes

## Synopsis

Original retail: \$9.98 Nothing gets rid of your hunger like a hearty soup or stew. In the Crock-Pot Soups & Stews cookbook, you'll find more than 60 simple recipes that are sure to satisfy any appetite. The cookbook's Family Favorites section includes a variety of classic soup, chowder, and bisque recipes that will please the entire family. You can also treat your family to a sampling of the best-loved soups and stews from around the world. And for a truly rich and filling meal that's easy to prepare, try one of the cookbook's Dinner in a Bowl recipes. Meat lovers will love the slow-cooked soups and stews that have a big, bold, and beefy flavor. Fans of chicken soup will be delighted with the creative variations on the classic dish from Vietnamese- and Mexican-style chicken soups to rice, barley, and matzo ball versions. A Crock-Pot makes preparing all of these stews and soups easy just combine the ingredients, and in several hours you'll have a delicious, wholesome meal. Each recipe includes a full-page color photo and clear step-by-step directions. Here are just some of the tasty soup and stew recipes you'll find in Crock-Pot Soups & Stews: Penne Pasta Zuppa Classic French Onion Soup Hearty Meatball Stew Mushroom Barley Stew Asian Beef Stew

## Customer Reviews

What a lovely cookbook. The illustrations and easy recipes make this a must have. I purchased this book for my brother who was getting use to his crock pot. Within a few weeks he had already made several of the recipes. I'm thinking of buying a copy for myself.

I LOVE THIS BOOK! I've made most of the recipes and they turn out beautifully. Full of flavor and they impress everyone. Also, very healthy, natural ingredients, lots of options for different cuisines (flavors around the world). I LOVE the Carrot Sweet Potato and Curry soup and the gouda apple french onion. GREAT little book, definitely recommend it for the slow cooker

My so-called 'hobby' is collecting cookbooks, especially those specifically on slow-cooking, which has come full-circle and is now a popular way to create a nice meal w/o much effort or heating up the kitchen during these long, hot summer days. This particular one is good, but it doesn't give a nutritional break-down [i.e. calories, salt content, etc., etc.] which I rely on due to a sodium restricted diet...so with a little common sense, I can often 'guesstimate', but still, it'd be helpful to have the usual info' per serving.

No problems with the quality. Met my expectations. Easy recipes with pictures. Perfect for anyone with a crock pot. m

I was pretty disappointed. I found more soups that I thought were family friendly in a more general crock pot cooking book. I have simple tastes and I felt like everything in this book was overly complicated. No simple stews or chowders or even a potato soup. You are better off with a crock pot cooking book that covers more things because then they wont have time for like three different pumpkin soups.

Fabulous crockpot book! So far I've tried 3 different soups from this book, and they've all been wonderful. I use my Crock-Pot a lot, because I love the whole slow-cooking concept; chop up your ingredients, toss them in the cooker, put the lid on, push the button, and it does the cooking for you. Each of the recipes in this book has a beautiful, full-color photo of the dish on the opposing page, which I really appreciate, because I can pretty much tell if I'm going to like something or not, just by looking at a photo of it. I also really like the spiral binding, which allows the book to lay flat and stay open, unlike most cookbooks which tend to close on you while you're busy preparing ingredients.

The slow cooker is the ONLY appliance I use, and I am constantly looking for new recipes to add to my collection. Soups and stews are my favorite dishes for my cooker, and this cookbook focused just on these wonderful recipes. I've already made several of them, and it looks like I'll be focusing

on this book for awhile. All the others on my shelf will just have to wait!

It said that there were no markings in the book and there were. There were corners turned down on the book also. I was going to use it to go with a crock pot for a silent auction. Can't use it for what it was intended for. I will just keep it for myself. Some of the recipes look like they are good.
