# The Ski House Cookbook: Warm Winter Dishes For Cold Weather Fun

## Synopsis

What could be better than standing on top of a mountain, snow sparkling, the slopes calling? Not much, except perhaps skiing down to a warm, home-cooked meal that comes together effortlessly. The Ski House Cookbook makes it all possible with 125 recipes that will keep you on the slopes or winding down with friends afterward, not stuck at the stove. Here are easy and delicious meals designed with minimum prep times for often limited home-away-from-home kitchens, from quick-cooking roasts, sautés, and other fast meals to slow-cooker dishes and recipes that can be made in advance and frozen. And, to get you in the right frame of mind, each recipe is coded with a difficulty rating that corresponds to the familiar green dots, blue squares, and black diamonds of the slopes. Start the day with *It Was the Night Before French Toast* (assembled in advance and baked in the morning) to keep you going until lunchtime, when a Colorado Cubano (made in a flash from readily available deli meats) will refuel you for the afternoon. An entire chapter of après-ski snacks, including Green Mountain Fondue and Spicy Roasted Chickpeas, helps tide you over until dinner, which includes tempting options such as Roasted Pork Loin with Cherry Balsamic Pan Sauce, Mogul Beef Chili, and Roasted Brussels Sprouts with Bacon. Hearty soups and pastas and indulgent desserts round out this collection of recipes that will warm you up from the inside out. In addition to the irresistible recipes, The Ski House Cookbook offers practical information on cooking at high altitudes, a section on getting the most out of your slow cooker, and 50 beautiful full-color photographs of the great dishes and snowy landscapes that skiers love. So whether you're hitting the slopes or just dreaming of days in the lodge, a double diamond pro or struggling down the bunny hill for the first time, here is your go-to guide to making easy, satisfying, and comforting winter meals.

## Customer Reviews

I can't wait for it to snow! This cookbook has mepining for chilly nights and hot chocolate! Therecipes are straightforward and delicious. I've neverhad such an easy time with fondue--and the GreenMountain version is great. I highly recommend thePan-roasted steaks. This is the best way I've evertried for making perfect steak at home. (I tried the15 minute mac & cheese for fun and I wish I made more)There are lots of quick dessert recipes, but ifyou've got the time make the Sticky toffee pudding!Ah, if only it were January...

I bought this book about 3 weeks ago and have already made at least 10 items from it... some of them two or three times. All of the recipes I've tried so far are great. Some of my favorites are the beef stew, Vermont risotto, sour cream muffins and Rustic Apple-Pear pie. All of the recipes are very easy to follow as well. I am planning to give this book as a gift many times over!

Since I live in Norway, I hesitated for only a second when I decided to use this cookbook in August to try some recipes. I loved almost all the recipes I tried: ham and cheddar breakfast strata, golden granola bars (amazing!!), black bean quesadillas (also amazing!), kettle corn, black bean dip, hearty lasagne, chili-spiced salmon, cider-maple pork shoulder, roasted sweet potato fries, vermont risotto, fabulously fudgy cocoa brownies (too easy to be so good!), chocolate chip pan cookies, peanut butter cookies, gingerbread, and hot cocoa.The other recipes I tried and liked (but not loved) were: spaghetti carbonara, penne alla vodka, sauce bolognese, roasted pork loin with cherry balsamic pan sauce, roasted brussels sprouts with bacon.Besides the desserts being absolutely amazing, they were easy to mix together with just a wooden spoon - not usually an easy feat for cookie recipes, but with these recipes, it was perfect.There were also a few "alternate" recipes along with the main recipes. For instance, the sweet kettle corn recipe had an alternate "peppery" recipe - so it wasn't just changing one little ingredient. This simple alternate had me inspired to try my own variations too and I ended up falling in love with kettle corn because of this book!

I picked this book up and saw the the authors ski at Okemo Mt,Vermont where our family skis every weekend, so I had to check it out!! I have already made many of the recipes with great

success--finally I can make an excellent calzone--at home!! authors Tina Anderson and Sarah Pinneo have put together a practical guide book including what to stock in your pantry and high altitude cooking instructions plus a wide array of easy, quick foods from appetizers to desserts. Great job, girls!!

I love skiing and food, so what could be better than a cookbook that combines both passions? The recipes are simple and delicious. I made the chicken with tarragon cream sauce and the apple crisp for a dinner party and they were huge hits. Can't wait to try the others. Next up: Pulled pork, one of my favorites. I will definitely give this book as a Christmas present to friends who love to cook.

I originally purchased this cookbook last winter after learning of it from a friend. Having prepared several recipes (the brownie recipe is my stand-by) it quickly became my favorite. In August, our home burned to the ground as a result of a wildfire. This cookbook was the first one replaced. The process of starting over is challenging at best but having a familiar item and favorite recipes (the soups and brownies are the best) has helped established a new normal.

I have a whole bookcase full of cookbooks, in case someday I suddenly turn into a cook. The ONLY cookbook I use on a regular basis is this one. This book enables someone with very little skill in the kitchen to whip out a fantastic meal that A) tastes great, B) looks beautiful, C) didn't mess up the whole kitchen making it, and D) was fairly easy to accomplish. I hope to see more from these authors in the future...

This lovely book has absolutely gorgeous photos that will make you want to buy a ski house just to have an excuse to make them! For those without a ski house however, this book is full of wonderful, practical recipes that will warm you on a cold day and make any winter meal festive.
